

YES! Enroll us in the *Healthy Air Employer Network*.

THE HEALTHY AIR PLEDGE

We support the mission of the Dane County Clean Air Coalition. We will voluntarily reduce our emissions to keep our air healthy and help Dane County avoid federal non-attainment designation for air quality. We join with other organizations to make Dane County a healthier place to live and work.

As a member of the *Healthy Air Employer Network*, we pledge to help improve air quality by:

1. Designating a coordinator to inform our employees of impending Clean Air Action Days so they can take action to reduce emissions. The coordinator will automatically receive Clean Air Action Day alerts and forward them internally.
2. Implementing one or more long-term activities to permanently reduce our emissions through an organization-wide policy or process change. We will explore the *Healthy Air* Employee Commute Options Toolkit and an Operations and Facilities Toolkit at www.healthyairedane.org
3. Growing the Healthy Air Employer Network by inviting at least one new member to join.

**THANK YOU FOR JOINING THE HEALTHY AIR EMPLOYER NETWORK.
TOGETHER WE CAN MAKE A DIFFERENCE.**

The Dane County Clean Air Coalition will keep in touch with you regarding your progress toward healthy air. We will help you quantify the emission-reduction impact of your efforts.
